In the right light, at the right time, everything is extraordinary

The work of talented young photographer Jarred Eid is now on display at The Arthouse.

Jarred's love and passion for photography is evident from the second you meet him. Jarred has a gift - an eye for detail, a maturity and an understanding of the meaning of what he is capturing - that few photographers, especially of his age, are lucky enough to have.

His passion took him to Morocco and Egypt where he further developed his abilities in documentary and landscape photography. This led to him achieving a short listing in Australian Human Rights Commission Photo Competition at age 17.

Jarred Eid provides us with photographic proof that in the right light, at the right time, everything is extraordinary.

The Arthouse is committed to supporting local artists and celebrating the creativity & artistic skill of the Macarthur community, through The Arthouse Local Artist Program which enables local artists to showcase their work.

Jarred Eid

Jarred's 'Moroccan Nomad' was shortlisted in the Australian Human Rights Commission Photo Competition
